## OVERVIEW

With a rugged personality and a smooth riding style, ATX features the familiar flat handlebar look of a traditional mountain bike. It has a lightweight yet durable ALUXX aluminium frame and a suspension fork with 75mm of smooth travel to soak up bumps. The wheel diameter varies based on bike size, with 26-inch wheels on smaller frames and 27.5 on larger ones. This tailors the bike's handling to a rider's height.

## KEY PERFORMANCE FACTORS

**All-terrain versatility:** With a mountain bike style flat handlebar, suspension fork and disc brakes, you can ride road or dirt with confidence.

**Lightweight and durable:** Frameset constructed with high-quality ALUXX aluminium.

**Comfort and stability:** Frame geometry puts the rider in a position that balances efficiency with stability on rough roads, paths or trails.
