Frame	ALUXX SL grade aluminium, Maestro 146mm travel, Boost, ISCG 05
Fork	RockShox Yari RC DebonAir, OverDrive steerer 15x110mm Maxle Stealth, 170mm travel, Boost
Shock	RockShox Deluxe select+ RT, Trunnion mount
COMPONENTS	
Handlebar	Giant Contact trail rise, 35mm
Stem	Giant Contact SL, 35mm, 8 degree
Seat Post	Giant Contact Switch dropper, 30.9mm
Saddle	Giant Romero
DRIVETRAIN	
Shifters	Shimano SLX, 12sp
Rear Derailleur	Shimano SLX Shadow+
Brakes	Shimano MT520 hydraulic disc, 203mm
Brake Levers	Shimano MT501 hydraulic
Cassette	Shimano Deore, 10-51T, 12sp
Chain	Shimano Deore
Crankset	Shimano SLX, 32T
Bottom Bracket	Shimano press fit
WHEELS	
Rims	Giant AM, tubeless
Hubs	Shimano MT-410, 28H
Spokes	Stainless steel, 14g
Tyres	Fr: Maxxis Assegai TR, 3C Maxx Terra, EXO, WT, Folding, 29x2.5" Rr: Maxxis Minion DHR II, TR, EXO, WT, Folding, 29x2.4"
OTHER	
Extras	MRP AMG CS chain guide

OVERVIEW

From the bike park to weekend enduros, trail sessions to backcountry adventures, this full-suspension 29er is ready for action. With a lightweight, strong and dependable ALUXX SL frameset, Reign 29 helps you conquer climbs and rail rugged descents with more confidence and control. Engineered with progressive geometry including shorter chainstays, a longer toptube and headtube/seattube angles that put you in the perfect position to slay all types of singletrack. The updated Maestro suspension gives you 146mm of smooth, active rear travel that features a trunnion mount shock and Advanced Forged Composite rocker arm. Add in a host of other aggressive trail riding technologies, including a cleanly routed dropper seatpost and the latest Giant WheelSystem with Boost hub spacing and tubeless tyres and it's ready to rip.

KEY PERFORMANCE FACTORS

Race-bred suspension: Maestro rear suspension developed and tested under extreme conditions of Enduro World Series races. The trunnion mount shock has a longer stroke and smoother feel and the Advanced Forged Composite upper rocker arm adds stiffness while lowering overall frame weight.

Progressive enduro geometry: The frameset features enduro-ready geometry so you can ride aggressive descents and rail corners with confidence. The 64.56/76.36-degree headtube/seattube angles with a 170mm travel, 44mm fork offset produce confident front-end handling with high-speed stability and control.

29er confidence and control: Larger 29-inch diameter wheels roll over rugged enduro terrain with improved balance and stability, giving you the momentum to crank up tough climbs and the confidence to fly on fast, technical descents.

FRAME GEOMETRY

UNITS IN MM UNLESS OTHERWISE INDICATED.

FRAME	S	M	L	XL
Seattube Length	431	431	464	496
Seattube Angle (Degrees)	76.36	76.36	76.36	76.36
