TECHNOLOGIES:

INTRODUCTION

When it comes to riding hard and fast on challenging off-road terrain, there's almost nothing this ambitious trail bike can't do. From steep, technical climbs to rowdy descents, Trance gives you the perfect blend of quickness and control.

TRANCE

FRAME

Sizes	S, M, L, XL
Colour	Black
Frame	ALUXX SL grade aluminium, Maestro 140mm travel, Boost, ISCG 05
Fork	RockShox 35 Gold RL, Debon Air, OverDrive steerer, 15x110mm Maxle Stealth, 150mm travel, Boost
Shock	Fox Float DPS Performance, Trunnion mount

COMPONENTS

Handlebar	Giant Connect trail rise, 31.8mm
Stem	Giant Contact, 8 degree
Seat Post	Giant Contact Switch dropper, 30.9mm
Saddle	Giant Romero

DRIVETRAIN

Shifters	Shimano Deore, 12sp
Rear Derailleur	Shimano Deore Shadow+
Brakes	Shimano MT420 hydraulic disc, 180mm
Brake Levers	Shimano MT401 hydraulic
Cassette	Shimano Deore, 10-51T, 12sp
Chain	Shimano Deore
Crankset	Praxis Cadet, 30T
Bottom Bracket	Praxis press fit

WHEELS

Rims	Giant AM, tubeless
Hubs	Shimano MT-410, 28H
Spokes	Stainless steel, 14g
Tyres	Maxxis High Roller II, TR, EXO, Folding, Fr: 27.5x2.5" Rr: 27.5x2.4"

OTHER

Extras	Giant chain guide

OVERVIEW

This is a trail bike that thrives in the most challenging conditions. The frameset is engineered with a lightweight yet super strong and stiff ALUXX SL aluminium frame. It has updated Maestro rear suspension featuring a trunnion-mount shock and Advanced Forged Composite rocker arm to soak up bumps small and large. You get 140mm of smooth, active rear travel that gives you the traction and control you need to be one with the trail. Frame geometry is designed around its 27.5 wheels, which deliver both quickness and control on rugged terrain. Up front, you have a 150mm suspension fork for even more confidence. Just pick your line, point it and go.

KEY PERFORMANCE FACTORS

27.5 agility and control: 27.5-inch wheels balance agility and control, giving you the ability to roll over rugged terrain, flick the bike at speed, change lines and explode out of corners.

Progressive suspension: Updated Maestro rear suspension features a trunnion mount shock with a longer stroke and smoother feel. With 140mm of rear travel (and 150mm up front), it has an Advanced Forged Composite upper rocker arm for increased stiffness and strength plus lower overall frame weight.

Trail-tuned chassis: The lightweight, stiff and durable ALUXX SL aluminium frameset features updated geometry to give you confidence on technical trails. The result is agile and efficient climbing plus added control for trails ranging from chunky singletrack to flowy high-speed descents.

FRAME GEOMETRY UNITS IN MM UNLESS OTHERWISE INDICATED.

FRAME	S	M	L	XL
Seattube Length	380	431	482	507
Seattube Angle (Degrees)	73.50	73.50	73.50	73.50
Top tube Length	580	610	630	655
Headtube Length	100	105	130	145
Headtube Angle (Degrees)	67.00	67.00	67.00	67.00
